INTRODUCTION

It is once again that time of the year when the Ministry of Education and Training is honoured to present the nation with the results of the 2008 Junior Certificate Examinations. The

total number of candidates who registered for the examinations this year was 16380. Of these, 16056 sat for the examinations, while the other 324 did not.

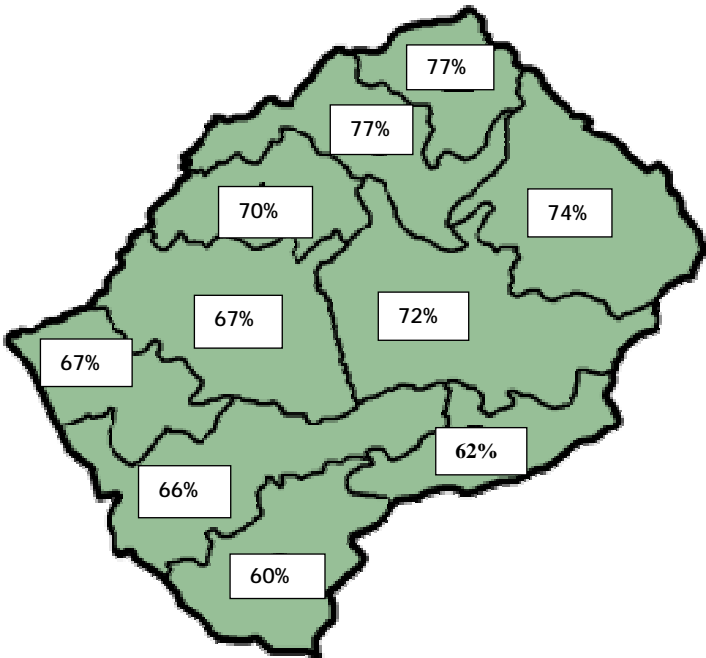

The general performance of candidates paints a picture similar to that seen in 2007. However, there is a slight increase in the percentage of candidates obtaining both first class with merit and first class grades, and a decrease in percentages obtaining second and third class grades.

Out of the 16056 candidates who sat for the examinations, 11423 (71.1%) were successful, while the other 4633 (28.9%) did not meet the minimum requirements for a pass. There has not been any significant change in both the pass and failure rates this year as compared to last year. The distribution of candidates per grade is as follows:

- a) 233 (1.5%) obtained a first class with merit. This number has risen by 0.5 % from last year.
- b) 997 (6.2%) obtained a first class. The number reflects an increase of 0.4% from that of last year.
- c) 8370 (52.1%) obtained a second class pass. This grade has seen a slight decline of 0.4% compared to last year.
- d) 1823 (11.4%) got a third class pass. This also reflects a reduction of 0.3% from that of 2007.

The ministry of Education and Training is concerned that performance in both Sesotho and English appears to have declined this year. Nonetheless, on a positive note there has been an improvement in mathematics performance this year.

The ministry wishes to congratulate all those who have done well in these examinations. To those who did not make it, we say be strong in will; to strive, to seek, to find and not to yield! Better luck next time!
